

Resources

www.etsy.com This is like an online market where vendors set up store fronts within the website. It can be very overwhelming at first as there are so many beautiful things. I have purchased toys, materials and art for my classroom on this site. To make it a little less overwhelming here are some stores that I have personally purchased items from and love!

<http://www.etsy.com/shop/Jounik> This is shop that sells lovely Waldorf inspired toys. The acorn people in our fairyland set were purchased from this shop. The prices are great and she ships her items fast.

<http://www.etsy.com/shop/Zooble> This shop makes beautiful sets out of felt. I have purchased their people and rag dolls and both were made beautifully. Jessica who owns the shop is very helpful as well, she has done up custom orders for me several times.

<http://www.etsy.com/shop/littlesaplingtoys> If it's beautiful wooden toys you desire this is the store for you. I have purchased many beautiful sets of blocks from this storefront. I highly recommend buying the organic stacking rainbow. They were a wonderful addition to the block shelf at our preschool.

www.naturalpod.com is a local company that sells beautiful wooden toys.

Lots of items can be purchased at dollar stores, thrift stores, china town and discount stores.

Found items are great as well. Take your children for a nature walk and see what you can find. Don't forget your parents putting out a letter calling for materials; they are sometimes our best resource!
